WORK EXPERIENCE

Computer Science Teacher
Don Bosco Institute

01/2021 - 04/2023   *Assam*
Achievements/Tasks

- I achieved a 100% success rate, with the majority of my students attaining outstanding letter grades in subjects that encompassed C, C++, Web Technology, and Data Structures. My approach focused on practical knowledge and customized learning.

IT Trainer
Cadd Nest Pvt Ltd

07/2023 - Present   *Bangalore*
Achievements/Tasks

- I played a pivotal role in empowering students from Karnataka to embark on successful careers in the IT field, including frontend development. My dedication to teaching was evident through both online and offline classes, ensuring that diverse learning needs were met.

Computer Teacher
C.B. Bhandari Jain College

07/2023 - Present   *Bangalore*
Achievements/Tasks

- I currently teach BCA students from scratch to an intermediate level in algorithm design, C programming, and data structures. I blend theoretical knowledge with practical exercises, My goal is to prepare students for academic success and future IT careers by equipping them with essential knowledge and skills.

PERSONAL PROJECTS

MERN Chat App (07/2023 - 09/2023)
- Developed a real-time chat application using React, Express, MongoDB, and Socket.io. Implemented seamless messaging with real-time updates, ensuring an engaging user experience.
- https://www.linkedin.com/feed/update/urn:li:activity:71442538191 56054016

Food Menu App (07/2023 - 07/2023)
- Crafted a stylish Food Menu App using React, Tailwind CSS, and React hooks. Features include a discreet navbar, dynamic content slider, and responsive side navigation for a modern, user-friendly experience.
- https://voyagerfoodrecipe.netlify.app

Netflix Clone (06/2023 - 07/2023)
- Built a Netflix clone with React, Redux Toolkit, Firebase, and TMDB API for an immersive streaming experience. Achieved a sleek UI, responsive design, and seamless integration of popular movie data.
- https://www.linkedin.com/feed/update/urn:li:activity:7139943567 845720064/

Social Media App (05/2023 - 06/2023)
- Created a dynamic social media app using React functional components and Hooks. Featured a homepage, timeline, and user profile. Enhanced user experience with a dynamic image gallery and modal slider.
- https://5ocial.netlify.app

Quiz app for all competitive exams (11/2022 - 01/2023)
- Developed dynamic quiz app in JavaScript with 3500+ questions mimicking government exams. Real-time content and buttons loaded from JSON files. Users challenge themselves, track progress with a scoring system.
- https://voyagersquizapp.netlify.app

CERTIFICATES

Letter tracking of Indian Railway with HTML and PHP (05/2016 - 08/2016)

The Complete Python Programming Bootcamp (08/2022 - 02/2023)
